**CSA 15- CLOUD COMPUTING AND BIG DATA ANALYTICS**  
**LIST OF EXPERIMENTS 9**

**9. Create a Snapshot of a VM and Test It by Loading the Previous Version**

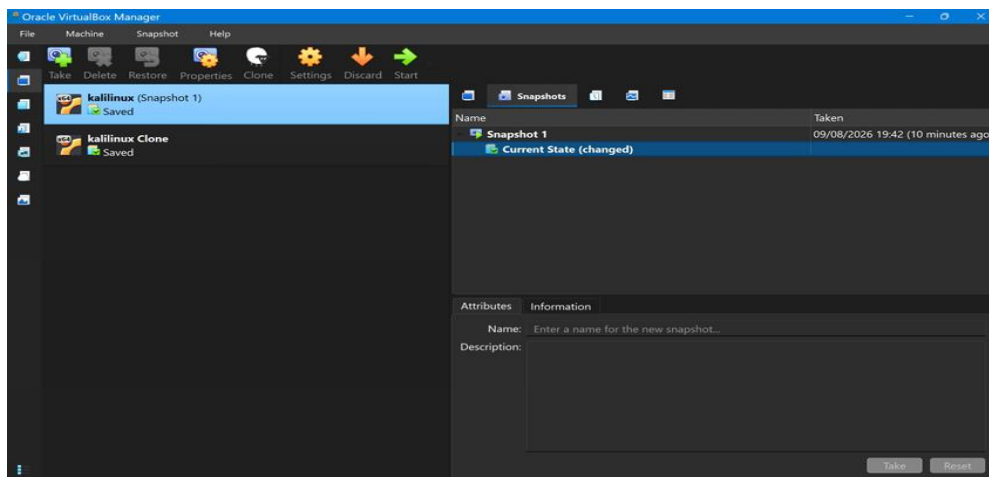

**Aim:**

To create a snapshot of a virtual machine and restore it to a previous state using VirtualBox.

**Procedure:**

1. Open VirtualBox and select the required VM.
2. Start the VM and make some changes.
3. Shut down the VM.
4. Open Snapshots and click Take.
5. Give the snapshot a name and save it.
6. Start the VM and make further changes.
7. Shut down the VM and select the saved snapshot.
8. Click Restore and start the VM.
9. Verify that the previous state has been restored.

**Snapchat:**

**Result:**

Thus, a VM snapshot was successfully created and the previous version was restored and tested using VirtualBox.
